Please notate all remarks regarding the condition of this Council that Trustees of the Grand Council need to be made aware of at this time (If need more space, continue on back of Report):

The camaraderie at TMRC PG Council is very good. These companions know how to have a good time. However, it seems that they're having a rough time with the basic ritual standards - multiple officers reading out of the book during a graded opening/closing, for example. Additionally, during my official visit, their RIDM informed everyone that he would not be pursuing election as T1M due to his past and future work schedule. The immediate future is uncertain, but they're pretty much resuscitated the council from being dead, so I'm optimistic.
